

The Swiss Association for Quality and Management Systems (SQS) is an independent not-for-profit organization which was established 1983. SQS is the market leader in its sector in Switzerland and has operations on a global level. SQS is dedicated to providing its clients with high quality, value added services.

As to expand our Climate Services team we are looking for a dynamic and highly professional

Technical and scientific assistant Climate Services

Starting date: as soon as possible. Work place is Zollikofen near Berne. Employment 70 – 100 %.

Main responsibilities

- To ensure the delivery of high quality validation and verification services that take full account of the respective standard requirements
- Successful candidates may qualify for auditors

Key competences required

Knowledge

- Sound qualification in environmental sciences (Master)
- Excellent and demonstrated knowledge and understanding of global climate change and project based mitigation mechanisms

Skills

- Fluent in English, working knowledge of German and French
- Excellent communication and teamwork experience
- Customer orientated, time-based and entrepreneurial working approach

Experience

- Project and process management in an international environment
- Practical work in the field of environmental sciences and/or climate change

Benefits of working with SQS

- A fascinating and challenging position in a dynamic business field
- Multiple tasks at the intersection of climate, evaluation and business
- A competitive salary and excellent social benefits
- Diverse possibilities for further training
