ISO 45001:2018

Certification of occupational health and safety

Incentive

Health and safety at work is an important issue in any corporate culture which is geared to sustainable success. ISO 45001 defines globally applicable criteria for occupational health and safety management systems. Verification that the criteria are satisfied is a credit to any company and an automatic image boost. As a leading audit and certification body, SQS has many years of experience and expertise spanning all sectors of industry. This explains why the SQS certificate for health and safety standards conforming to ISO 45001 is held in high regard and accepted all over the world.

Outcome

ISO 45001 helps improving the safety culture and reducing the burden on the staff by establishing a framework for occupational health and safety improvement, for reducing workplace risks and for creating safer and better work conditions. In this way, productivity is enhanced (less workdays lost) and the attractiveness as employer is increased.

Target groups

Companies and organisations of all sizes operating in all sectors.

Validity

3 years – there is an annual audit to ensure that standards are being maintained and a recertification audit after 3 years.

MEMBER OF

Swiss Made

IQNET

Recognition

The SQS certificate of conformity with ISO 45001 has international validity and is recognised worldwide through the IQNET membership.

Combinations

ISO 45001 can be extended into an integrated management system in con- junction with ISO 9001 (quality management) and ISO 14001 (environmental management).
